And Finally

My top tips to success

1. Communicate

- What do you need. From Dynamic or your employer. You must ask
- Inform. Something come up? Let us know. We're humans and we'll all listen
- Needs. Extensions, quiet time, accessibility...

2. Time Management

- A lot to achieve, so timeliness is key
- Unsure? Ask.

3. Balance

- The apprenticeship is full time, though there will be a need to strike a balance between the customers' needs, portfolio work and work from home*
 - *not all apprenticeships are achievable only in working hours. Some study may be required in quiet hours. To be discussed with Line Manager.
